DETAILED ACTION

1. This action is responsive to communications: Amendment, filed on 11/5/2002.

This action is final.

2. Claims 1 and 2 are pending in this application. Claims 1 and 2 are independent claims. In the Amendment, filed on 11/5/2002, claims 1 and 2 were amended.

This application is a Continuation of PCT/JP99/07248 dated 12/22/1999.

3. The present title of the invention is "Communication terminal" as filed originally.

Claim Rejections - 35 USC § 102

4. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

5. Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Camarda (Using Microsoft Word 97).

As per claim 1, Camarda discloses a communication terminal comprising:

a display unit which displays an original selection screen for selecting at least one of a plurality of options ("the Most Recently Used file list that appears at the bottom of the File menu", page 40, where the monitor of the PC is a display unit and the bottom section of the file menu of the Word program has a list of options); and

display control means which causes display of options in said display unit by division or scroll to enable selecting an option not currently displayed in said display unit

Art Unit: 2672

from the options to be selected (Figure 1.24 where the pointer can scroll to select an option not currently presented) and performs a display so as to include said selected option when displaying said original selection screen next ("Word keeps track of the last four files you work with", page 40).

6. As per claim 2, Camarda discloses a communication terminal comprising:

a display unit which displays an original selection screen for selecting at least one of a plurality of options ("the Most Recently Used file list that appears at the bottom of the File menu", page 40, where the monitor of the PC is a display unit and the bottom section of the file menu of the Word program has a list of options); and

display control means which causes display of options in said display unit by division or scroll to enable selecting an option not currently displayed in said display unit from the options to be selected (Figure 1.24 where the pointer can scroll to select an option not currently presented), and which causes, when an option not currently displayed has been selected, display of a screen associated with said selected option in said display unit and causes display of information indicating said selected option when displaying said original selection screen next ("Word keeps track of the last four files you work with", page 40).

Response to Arguments

7. Applicant's arguments with respect to claims 1 and 2 have been considered but are moot in view of the new ground(s) of rejection.

Art Unit: 2672

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
